Profile

Aspiring Computer Science student with a strong passion for software development, problem-solving, machine learning, and algorithmic thinking. Proficient in Java, Python, and Data Structures and Algorithms (DSA). Hands-on experience in front-end web development, database management (SQL), and competitive programming. Skilled in building scalable applications, optimizing algorithms, and exploring emerging technologies. Strong interest in Artificial Intelligence and Full-Stack Development, with proven achievements in coding competitions and hackathons. Seeking opportunities to apply my skills, gain industry experience, and grow as a software engineer.

Education

VR Siddhartha Engineering College

Bachelor of Technology in Computer Science and Engineering

Oct 2023 – May 2027

CGPA: 9.47

Experience

No formal industry experience yet

Gaining practical exposure through academic projects, hackathons, and competitive programming.

Projects

Food-n-Food — A Recipe Search Website | *HTML, CSS, JavaScript, React.js*

- Developed a dynamic recipe platform with search functionality using React.
- Integrated recipe API to display cuisine-based dishes.
- Tested APIs and handled requests using Postman

Bharathaath – Digital Marketplace for Handcrafted Idols(Ongoing) | *React, Node.js, Express.js, MongoDB, AR.js*

- Developing a web platform for showcasing handcrafted idols with artisan profiles and product management features.
- Integrating AR-based visualization using AR.js and Three.js for virtual product previews
- Designing a responsive, user-friendly interface to enhance local handicraft visibility and customer engagement.

Skills

Languages: Java, C, Python, JavaScript

Frontend Development: HTML5, CSS3, JavaScript, React

Developer Tools: Git, GitHub, VS Code, Postman (API Testing)

Other Skills: Object-Oriented Programming (OOP), SQL, API Integration and Testing, Fundamentals of Machine Learning

Soft Skills: Teamwork, Problem-Solving, Effective Communication, Adaptability, Patience, Time Management

Competitive Coding

Solved 200+ problems on LeetCode (rating: 1444) and regularly participate in coding contests.

Solved 150+ problems on GeeksforGeeks with an institute rank of 189.

Selected for the Google WE Program, a prestigious initiative for women in technology.

Participated in the Google Girl Hackathon, showcasing strong coding and problem-solving skills.

Certifications

Microsoft Certified: Azure AI Fundamentals (AI-900, June 2025) — NPTEL C++ Exam (63%) — NPTEL Social Networks Exam (70%) — Java Certification – Infosys SpringBoard — AWS Academy Graduate – Data Engineering — API Testing with Postman – Postman

Leadership / Extracurricular

NSS Volunteer: Contributed to community service initiatives, promoting awareness and organizing events for welfare.

Dance: Participated in multiple cultural events at college.

Sports: Actively participate in sports events at university.
